Certificate

product : *Artificial turf*
type : *RICCORL and RICCOPROFI*
supplied by : *RICCO POLSKA Sp z.o.o.*

Contents

According to the laboratory research performed by ISA Sport it is concluded that:

- The artificial turf sample meets the requirements on climatic resistance after artificial weathering (ISO 4892-3) according to the EN 15330-1:2007 and "Handbook of Test Methods for Football Turf".

The artificial turf is identified by the following characteristics:

- Pile length : 40 - 65 mm;
- Thickness : 210 - 260 micron;
- Tufts per unit area : 6700 - 11660 tufts/m²;
- Tensile strength : >12 N;
- Pile weight : 11000 - 16440 dtex;
- Yarn shape : straight, not fibrillated, diamond shape;
- RAL color : 6025;
- DSC analysis : onset 115 - 117 °C.
